### Leadership Experience Essay

Please tell us about your leadership experience. In an essay, please give us an example of a time in your life when you served as a leader in any capacity (you may not have had an official title during this experience, that is fine). How does this example demonstrate your leadership experience? What did you learn and how did this experience help you to develop your leadership skills?

### Essay Choices:

#1 - Consider what is embodied in "leadership" and how it applies in the field that you want to go into or the field that you are studying. Make the argument for one person in your field who has been a good leader. Explain your choice in a way that is understandable to someone outside of your discipline.

#2 - History provides many examples of good and bad leaders. In an essay, give a historical illustration of each end of the spectrum, explaining what about their leadership earns them the distinction of "successful/good" or "unsuccessful/bad."

#3 - The concepts of leadership and management are very similar concepts, but they have a tremendous impact individually on an organization. Explain this. Is one concept more important than the other and if so, why?
